## Newsletter 4

April 2005

I would like to take this opportunity and thank two first time clients. They are **Thiess Pty Ltd** and **Nine MSN**. It was a real pleasure providing photography for your Christmas functions and would look forward to working together again in the future.

Please note that Karl Sharp Photographics has had no increase of prices. Refer to original price list for current price guide. If anyone would like a new price list please let me know and one can be faxed over to you. Also let me know if anyone would like a few extra bussiness cards.

## PHOTOGRAPHY ON SHOW

Those of you who have a personal interest in photography might enjoy the Rosemary Laing exhibition currently showing at the MCA, running until the 5th June. Show is titled "Unquiet Landscapes of Rosemary Laing".

Carpeted forrest floors, rolling heads on the desert floor and unnatural disasters provide a non traditional, yet very engaging way of looking at the Australian Landscape. Free entry.

## DIGITAL PHOTOGRAPHY AND ITS LEARNING CURVE

I am sure every one is aware of the increasing popularity and benefits of using digital photography. Image quality is ever increasing and good display prints are obtainable from high-end D SLR's, meeting the most discerning eye. Karl Sharp Photographics has begun using Nikons' DH2 SLR camera. This camera was designed with the photo-journalist in mind. The images that come off this camera are of good quality and are recommended for web site and associated media and display purpose prints up to about 16 x 12 inches.

However, for the time being and after discussions with Pre-Press managers, I will continue to reccomend the use of transparency film for large poster size prints and all work intended for the Lithographic printing process, especially where highest quality image reproduction is desired. If you have any queries regarding the best options to suit your individual application please don't hesitate to call me to discuss further.

## RECENT WORK

Five commercial/ Industrial sites for Engineering firm **Irwin Consult**

Architectural designed pool and surrounds of private residence for **Peter Glass and Associates**

10 portraits of Australia Day Ambassadors for **Holroyd City Council**

New aquisition of prints purchased by the **National Library of Australia**

Regards & Best wishes for the rest of 2005
